Subject Index
Volume 11, 1989

ADHD, 179
Adolescent Psychopathology, and Child, Assessment and Taxonomy (BR), 274
adolescents' behavioral skills, alcohol resistance, 353
Adventure Game, 179
Affect, Specific, Coding System, 65
affect
  negative and positive, marital quality, 81
  negative, reciprocity, 39
aggregating findings, 281
aggression, physical, 101
agreement
  interteacher, 297
  self-monitoring & collateral, alcohol consumption, 391
alcohol
  consumption, self-monitoring vs. collateral reporting, 391
  offer resistance, role play, 353
anger, couples, 65
anorexia nervosa, 433
ASQ, 179
assessment, technology driven, 381
attention deficit-hyperactive children, rating scale, 179
autoregressive model, 315

bias in forced turn-taking sequences, 135
binge-eaters, bulimic, 433
Body Image Assessment, 433
body image disturbances, 433
bulimia nervosa, 433

C statistic, inappropriate for single-subject data, 315
CBCL, 274–327
change scores, reliability, 459
child
  psychopathology, 469
  studies, contextual effects in behavioral control, 231
  therapies, rating scales, 179
Child, Assessment and Taxonomy, Psychopathology (BR), 274
childhood disorders, 469
Children's Assertive Behavior Scale, 219
children
  behavior, observation of, historically, 201
  hyperactive, medication effects, 179
  social problem solving, 219
CISS, 65
cluster analysis, 327
coding, marital and family interaction, 1
cognition-behavior interface in dyadic interactions, 149
communication, marital, German and English couples, 119
computer-collected data, 249
conditional probability, 249
conduct problem behaviors, rating scale, 297
conflict resolution, couples, 65
conflict
  natural progression, in homes, 101
  resolution
    couples, 65
    discussions, 81
Conners Abbreviated Symptom Questionnaire, 179
Conners Child Behavior Scale, 179
consistency, internal, rating scale, 297
construct validity, 433
consumption, alcohol, self-monitoring vs. collateral reporting, 391
contextual effects in behavioral control, 231
convergent validity, 297
  role play alcohol resistance, 353
costs and benefits, global and microanalytic systems, 81
Couples Interaction Scoring System, 65
couples
  interaction, scoring system, global rapid, 65
  distressed and nondistressed, 39
criterion validity
  global measures, couples interaction, 81
  school behavior rating scale, 297
critical change scores, 459

cultural consistency, marital satisfaction and communication, 119

Decision, Assessment for (BR), 381
discriminant validity, 297
  role play alcohol resistance, 353
disgust-contempt, 65
double blind, 179
DSM-III, 384
DSM-III-R, 179, 269, 274
dyadic interaction, future research, 149
dysphoria subscale, Conners Child Behavior Scale, 179

eating disorders, 433
effect-size data, generation of, 281
efficacy, treatment, 459
Epson HX-20, 249
evaluating variables, study quality, 281

family
  behaviors, coding units, 13
  interaction, 1
  studies, contextual effects in behavioral control, 231
fear, couples, 65

generalizability, measurement, social competence, 411
global rating, molar behavior units, 13

Handbook, Behavioral Assessment: A Practical (BR), 384
historical view, observation of children, 201
home observations, couples, 101
horses, penile erection in, 272
humor, couples, 65
hyperactive children, rating scale, 179

IDCS, 81
independence, sampling or empirical, 31
instructions, modeling, interviewing, 165
Interactional Dimensions Coding System, 81
interactions, segmenting behavioral stream, 13
interbehaviorism, 231
interobserver agreement, 249
interviewing skills, training, 165

lag sequential analysis, 249
lag-1 autocorrelation, *C* statistic, 315
LISREL analyses, 353

marital
  communication, German and English couples, 119
  family interaction, 1
  interaction, distressed and nondistressed couples, 39
  satisfaction, German and English couples, 119
measurement, global, intermediate, molecular, 411
medication for hyperactivity, rating scale, 179
meta analysis, intrasubject experimental designs, 281
method variance, 353
methylphenidate, 179
microanalytic coding system, interaction, 81
modeling, instructions, interviewing, 165
molar behavior units, global ratings, 13
multitrait-multimethod matrix, 353

normative data, body size, 433

obesity, 433
observation
  family interaction, 1
  systematic, historical view, 201
observing observers, marital and family interactions, 135
Open Middle Interview, children's assertive behavior, 219

parents of visually impaired adolescents, 327
perception-behavior interface, couples, 39
polygraph, 272
posttreatment score, regression toward the mean, 459
Preschool Behavior Questionnaire, 297
preschoolers, teachers of, 297
psychometric issues, 384
Psychopathology, Child and Adolescent, Assessment and Taxonomy (BR), 274

Rapid Couples Interaction Scoring System, 65
rating scales, medication effects, hyperactive children, 179
RCISS, 65
real-time observations, 249
recall, drinking, 391

regression toward the mean and change scores, 459
reliability
  Body Image Assessment, 433
  school behavior rating scale, 297
repeated administration, systematic bias, 297
response classes, 231
Ritalin, 179
role-play, social competence, 327, 411

sadness, 65
sampling independence, empirical independence, 31
satisfaction, marital, German and English couples, 119
Schools, Behavioral Assessment in (BR), 269
scoring system, global rapid couples interaction, 65
self-monitoring & collateral, alcohol consumption, 391
sequential analysis
  independence, 31
  sensitivity to low lag frequencies, 135
SESBI, 297
Sexual Arousal, Patterns of (BR), 272
single-case studies, 281
single-subject research, meta analysis, 281
Skinner box, 272
slope, stability of responding, single-subject data, 315
social skill
  competence, visually impaired adolescents, 327
  components of, 327
SPAFF, 65
spina bifida, adolescents, social competence, 327
state transition analysis, 249
statistical analyses
  coding marital interaction, 1
  secondary, 281
stimulant medication, 179
student's behavior, role play alcohol offer, 353
summarizing strategies, impact, 149
Sutter-Eyberg Student Behavior Inventory, 297

Techniques, Dictionary of Behavior Therapy (BR), 383
test-retest stability, 297
training, initial assessment interviewing skills, 165
treatment effects, evaluation of, 315
Type I error, 315

unit of observation vs. unit of measurement, 13

validity
  assessment of skill, role play, 353
  Body Image Assessment, 433
  criterion, global measures, couples interaction, 81
  rapid couples interaction scoring system, 65
variability, excessive, in response rate, 315
verbal reports of drinking, 391
visually impaired, social competence, 327

whining, 65
WISC-R, 327
Wolpe-Lazarus Assertion Inventory, 327

Youth Self-Report Form, 327
